Factoid:

- The Vanity Call Sign System was adopted primarily due to the efforts of a single amateur, Jim Wills, N5HCT of Tyler, Texas who wanted his previous WA5EHQ station call sign back. He convinced Congress that amateur radio operators would be willing to pay for a specific call sign and they added it to the legislation.

Eligible for Selection:

- U.S. Call Signs that have not been active for at least two years from the group(s) you are eligible to use in accordance with your mailing address. With the following noted exceptions:
 - This limitation does not apply to an applicant for the call sign as the spouse, child, grandchild, stepchild, parent, grandparent, stepparent, brother, sister, stepbrother, stepsister, aunt, uncle, niece, nephew, or in-law, of the former holder now deceased.
 - The license of the former holder now deceased must show a status of expired or cancelled in the licensee database. This is accomplished by submitting a signed request for license grant cancellation accompanied by a copy of an obituary or data from the Social Security Death Index that shows the date of death, or a death certificate, to:
FCC
1270 Fairfield Road
Gettysburg, PA 17325-7245

Key Criteria:

- You must hold an unexpired amateur operator/primary station license grant.
- To request a vanity call sign for a club station, you must also hold an unexpired club station license grant listing you as the license trustee.
- Your name and mailing address as shown on your current license grant must be correct. (Your mailing address will restrict you from requesting certain call signs.)

Call Sign Group X: History

- Group X: WC, WK, WM, WR, or WT
 - WC > Issued to RACES
 - WR > Issued to Repeaters
 - The FCC stopped issuing repeater call signs in 1983 and ceased renewing RACES licenses in 2000. After the current vanity program began in 1996, several ham clubs sought new and formerly held repeater and RACES-type call signs. When the Universal Licensing System came along in August 1999, however, the FCC encountered some licensing system programming shortcomings, including the anomalous assignments of WC and WR-prefix 2x3 call signs as acceptable formats. When the FCC implemented programming corrections that halted the issuance of Group X call signs in September 2003, it did not advise the amateur community until August of 2004.

Call Sign Trivia W & K Boundary

- Originally W calls were assigned to stations in states bordering the Atlantic Coast / Gulf of Mexico and to the states directly north and east of Texas. K calls were assigned to the stations in states on the Pacific Coast and states west of Texas. In late January of 1923 the boundary was changed to the Mississippi River.
